

RCBC SIGNS AGREEMENT FOR PREPAID ELECTRICITY PORTAL PROJECT. Further enhancing the advantages of its online banking facility, Rizal Commercial Banking Corporation partnered with technology service provider XEN Energy Systems Inc. to facilitate the online distribution of the country's first prepaid electricity service. Designed to help both residential and industrial customers manage their electricity consumption, this Prepaid Electricity Portal Project is also a first in Southeast Asia. Retail customers can benefit from this cost-effective method of power usage by opening an account with RCBC and paying prepaid electricity through the bank's AccessOne internet banking, RCBC Mobile Banking, as well as in sari-sari stores. This service is governed by the Prepaid Retail Electric Service of the Energy Regulatory Commission. Photo shows (seated from left): Remo M. Garrovillo, Jr., FVP & Head, RCBC Channel Management & Product Development Division; Ismael R. Sandig, EVP and Head, RCBC Retail Banking Group; Ariel Dela Cruz, President & CEO, Xen Energy Systems, Inc.; Jasmin Agbon, Finance Director, Xen Energy Systems, Inc.
